

# BOATBOUND CHECK-IN/OUT DOC

Ahoy Captain! Your booking has been approved and it's almost time to get out on the water. However, before the boat leaves the dock, make sure you follow these five steps.

## 1

### SAFETY WALKTHROUGH

We count on each boat owner to make sure every renter understands where the safety equipment is and how to use it. At the minimum, we recommend going over the following:

- Life Jackets** – Note the location and quantity of the life jackets (PFD's) on board, ensuring that there are enough for all passengers. All passengers are required to wear a lifejacket at all times.
- Safety** – Make sure to highlight the location of all fire extinguishers, flares, anchors, lines, thru-hulls and any other important safety equipment.
- GPS** – If there is a GPS unit on board, make sure to identify the location of the unit and how to operate it.
- VHF Radio** – Please demonstrate to the renter how to call for help if needed.
- Operating Instructions** – Before turning over command of the boat, it is important you walk through the operation of your boat. Please cover any situations the renter may need to be prepared for, like how to refuel the boat, ways to tie off, or any special quirks your boat may have.

## 2

### FUEL POLICY

The boat's gas tank should be full when you pick it up, but be sure to discuss expectations and options. Make sure you agree (and check) on one of the three fueling options:

- The renter refuels the boat prior to the end of the rental. A penalty is applied if the boat is not refueled.
- The owner includes fuel with the rental.
- The renter returns the boat without fueling. The owner will then refuel the boat and inform the renter who will either pay directly or the amount will be taken out of your security deposit

Also, make sure to note the fuel gauge and engine hours during your rental on the next page.

## 3

### EMERGENCY CONTACTS

Please use the following numbers in the case of emergency (ordered by priority):

- **Owner Cell Phone** - \_\_\_\_\_
- **Boatbound Support** – (855) 462-6282
- **Boat US Towing** – (800) 391-4869 (Reference Number 49000251)
- **Coast Guard** – Channel 16 (VHF) or 911 (Cell Phone)

# BOATBOUND CHECK-IN/OUT DOC

In this section, please describe the existing condition along with the fuel & engine hours. This document is required in the off chance there is any type of claim or dispute.
